RULES

AS TO

ENDOWED ROOMS AND BEDS

A donation of \$5,000 endows a bed in a ward with the right to name the bed in perpetuity, but without the right to nominate occupants for the bed.

A donation of \$7,500 endows a bed in a ward with the right to name the bed in perpetuity and the right to nominate the occupants of the bed during the life of the endower.

A donation of \$10,000 endows a private room with the right to name the room in perpetuity, but without the right to nominate the occupants of the room.

A donation of \$25,000 endows a private room with the right to name the room in perpetuity and the right to nominate the occupants of the room during the lifetime of the endower.

The right to nominate the occupants of a bed or room shall be understood to mean:

That the endower shall have the right to nominate one patient at a time to occupy the said bed or room, and if all beds or rooms are occupied to a preference over all other applicants when a vacancy occurs.

In the event that an endowed bed or room is occupied the Hospital reserves the right to place the patient in some other equally good bed or room.

Persons nominated to free beds or rooms should be worthy subjects for such charity.

Persons whose means admit of their paying for hospital care and treatment are not acceptable as occupants of free beds.

Special investigations by the John Jay Borland Fellow in Clinical Research were started by Dr. J. A. Bargen. He completed certain studies concerned with infections of the heart in patients, and in animals with such infections experimentally produced he tested the healing value of an arsenic compound. A report of this work has appeared recently in the Archives of Internal Medicine. Further studies are being made by Dr. A. D. Biggs, the John Jay Borland Fellow for the year beginning July 1, 1923.

Other studies concerned with the defense of the body against infections have been made possible through the Winfield Peck Memorial Fund. These, for the most part, are published in the Journal of Infectious Diseases.

Through the efforts of Dr. J. A. Capps, a Seymour Coman Fellowship in Chemistry applied to medical problems has been arranged for our laboratory. This fellowship and two others were provided by the Seymour Coman will in a bequest to the University of Chicago, and arrangements have been made with the Chemistry Department of the University whereby the investigations provided for by the fellowship in chemistry are to be carried on in the laboratory at St. Luke's Hospital. A. P. Locke, Ph. D. (Kent Chemical Laboratory, University of Chicago), has been awarded this fellowship.

There have been published from the laboratory during the year 1923, the following studies:

We regard as especially worthy of emphasis the steady growth of the work of the laboratory in all respects, a progress truly commensurate with that made in other fields of work in the hospital. The physician of the present and succeeding generations practices according to the lights handed him from the past and it is the wish of those striving for new things to add something, however small, that will be helpful to present and future medicine. Limited as our space is, there is happy anticipation over the contemplated much larger laboratory which will materialize in the new hospital building.

We are grateful to the friends of the hospital who in a quiet way have helped and are helping the development of the laboratory.

ANNUAL REPORT OF ROENTGEN DEPARTMENT

During the past year four thousand three hundred patients were examined in the X-ray Department. The number includes both the diagnostic and treatment cases.

During the past year there has been a decrease in the number of treatment cases. This reduction is to be expected, as there is always a period of conservatism following the usual enthusiasm that is prone to develop with the advent of a new method. The pendulum is now swinging towards the normal.

The High Voltage Roentgen Therapy is now given in smaller doses, distributed over a longer period of time, thereby obviating some of the unpleasant symptoms that followed the massive doses.

The diagnostic work has been steadily increasing. At present we are handling about as many patients as is possible with the present space allotted to the Department. We feel with the completion of the new building, which will house the new X-ray Department, our work will increase (75%) seventy-five per cent.

The work of the Department will increase in proportion to the quality of the work and service rendered to both patients and doctors. With more room patients will be accorded better service. There will be a waiting room in which patients may rest while waiting their turn to be examined.

The new Department will be equipped with at least two radiographic rooms. The additional room will greatly facilitate matters.

We hope by the time the next annual report is rendered we will be operating under the roof of the new building.

REPORT OF THE ELECTROCARDIOGRAPH AND METABOLISM LABORATORIES

The Electrocardiograph and Metabolism Laboratories are operated together, the technical work being in charge of Miss Elspeth Duncan. Addition of new apparatus to the Metabolism Laboratory during the year added much to the efficiency of the laboratory. In the Metabolism Laboratory determinations were made on 280 cases, of whom 90 were outpatients. In the Electrocardiograph Laboratory, electrocardiograms were made upon 355 cases, 105 of whom were outpatients.

Matron, Stickney House.....	1
Matron, Saranac Houses	1

Assistance is also given by the heads of the Social Service, Occupational and Hydrotherapy Departments.

During the past year Head Nurses were placed in charge of the Wards and floors of the Private Pavilion. With these nurses and the great number of students to be admitted during the coming year, we hope to be ready to meet the demands made by the erection of the New Building.

In order to better care for a larger enrollment, two class rooms, with adjoining supply rooms and a Study for the Instructors, have been arranged on the first floor, of the Stickney House. The entire rear of the second floor has been made into a beautifully lighted and spacious Dining Room, with a seating capacity of 230.

The interest of the Women's Board has been greatly appreciated, especially the Library Committee, who keeps the Reference Library supplied with the latest technical books, as well as a large number of volumes of fiction and magazines, for leisure hours. The Social Activities have been arranged with success. A new piano and a beautiful silver service, through the generosity of individual members, have been added.

We note, with appreciation, the continued interest of the Medical Staff in the instruction and general welfare of the Nurses. Helpful criticism and suggestions have been made to advantage by the Efficient Committee of the Board.

The institution of a Sunday evening Chapel Service by Dr. Wm. O. Waters of Grace Church—has been a decided benefit. Mr. Emmett Wilson, Director of the Choir—has organized a Chorus of 40 voices—among the nurses with weekly practice. It is the custom of this Chorus to assist in the evening service.

Respectfully submitted,
MILDRED PRINGLE.

CHAPLAIN'S REPORT

To the Board of Trustees, St. Luke's Hospital, Chicago.

Gentlemen:—

The work of the Chaplain during the year 1923 has been carried on without unusual interruptions. Daily Chapel Services have been held as usual and short ward services as opportunity offered.

I administered the Sacrament of Baptism to three adults and eight infants, solemnized one Marriage and officiated at eleven Burials. The Holy Communion was celebrated in the chapel forty-eight times on Sundays and sixty-eight times on Holy Days and other week days. Other services held in the Chapel numbered two hundred and two. On fifty-seven occasions I administered the Holy Communion to the sick in private.

All things else being equal, one's influence increases with the years of his service. The importance of the religious atmosphere in the hospital can hardly be overestimated. Patients are thus fortified for the ordeals through which they are to pass. Service rendered in the spirit of the Master is the most efficient. So have I found my efforts to supplement the work of the physician and surgeon increasingly helpful and satisfactory.

I am under great obligations to the women's board and other friends for the contribution of current magazines and books of recent publication to the Chapel Library. These are of great aid to me in any work and I wish to express my sincere thanks to the donors.

With heartfelt thanks to the Board of Trustees for their un-failing interest, kindness and support,

Respectfully submitted,
GEORGE DEMING WRIGHT.

Information Relative to Pay Patients

Under no circumstances, except in an emergency, should a patient come to the Hospital without first having arranged for accommodations.

Medical and Surgical Fees in the case of pay patients are fixed by private arrangement with the Attending Physician or Surgeon.

PRIVATE ROOMS

The rates in the Smith Memorial Building are: Two Bed rooms, \$5.00 per bed per day; Single rooms \$7.00 to \$15.00 per day. Relatives or friends will be accommodated at the same rates as patients when the available space will permit.

GRADUATE NURSES

Graduate special nurses may be employed by patients at the following rates:

Per week\$42.00

Less than week, per day..... 7.00

Board for nurse, per week..... 10.00

The entire transaction is directly between the nurse and the patient and payment should be made to the nurse. Graduate special nurses are to have eight hours rest at night and two hours off duty during the day.

PUPIL NURSES

Pupil special nurses will be furnished when they are available at the rate of \$25.00 per week with no charge for board. Ten hours duty per day.

AN EXTRA CHARGE WILL BE MADE FOR THE FOLLOWING:

Use of operating or delivery rooms; gas anaesthetics; X-Ray and electrical examinations and treatments; Electrocardiographic tests; Metabolism tests; Hydrotherapeutic, Thermotherapeutic and Phototherapeutic treatments and unusual articles of diet, medicines, apparatus and dressings.

REPORT OF PRESIDENT OF WOMAN'S BOARD

It is with great pleasure that I present the reports of the various committees of the Woman's Board of St. Luke's Hospital.

The Board has gained fresh inpetus from the number of new members who have added their enthusiasm and efficiency to the fine work that has been carried on for so many years by members of longer standing.

The hospital has been assisted financially by the Woman's Board to the amount of \$4,642.43, but it is difficult to speak of the many activities of the Board in financial terms, and I wish to express my appreciation of the interest that has been shown by all the members in St. Luke's Hospital.

Respectfully submitted.

MERVYN WINSTON BAUM,

President of the Woman's Board.

The first work of the Kindergarten Committee was to renovate the Florence Ward. We started after the walls had received their yearly cleaning by putting up a frieze called Playtime in the dining room, one called Bedtime in each of the other rooms with the exception of the play room where a Billy Circus frieze was put up. We were able to do this as a result of Mrs. Borden's generosity, who sent us a check for the wall paper and also for window boxes. The latter, however, owing to their unexpected expense were abandoned in favor of potted plants, such as tulips and a rose tree at Easter.

We also painted the furniture in the play room and dining room grey with a blue duck on the back of each chair. We then put up lamp shades with children and animals on them and finally added new curtains in the play room. These were of blue and were printed with scenes from Mother Goose. New tools, games, toys, a work bench, two dozen plates with rabbits on them and six folding tables were added to the equipment.

In the late spring the Committee suggested the project of putting cottages on the roof of the Florence Ward for the children. This was agreed to by the board and two cottages were erected. We were able to get the cottages and lumber wholesale, thanks to Mrs.

Litzinger. The contractor who put up the flooring kindly gave his services and some additional material free. The cottages were in use this summer and seemed to be of great benefit to the children.

In addition to the expenditures listed above, in February, 1923, by authority of the Woman's Board of St. Luke's the following items were charged against its account at Marshall Fields. Six tables, a work bench, 9 yards of cretonne, 4 games, 3 cans of paint and 2 doz. plates.

The Committee wishes to take this opportunity to thank the Board for its generosity and assistance. It also wishes to thank the members who gave parties for the children, donations and many useful gifts, such as victrola records, books, toys and a bowl of gold fish. Finally we wish to thank the Service Club who gave the annual Christmas tree and gifts.

Respectfully submitted,

ELEANOR P. COCHRANE.

During the year the committee gave five dances for the nurses, including the one at graduation. Mrs. Baum entertained them at a Valentine party at her house, and Mr. Spoor gave the Christmas dance. Mr. Schweppe sent candy, holly and flowers. The party before Thanksgiving was given to help raise money for a cottage for tubercular nurses at Naperville. By charging for admission, for seats at card tables, for checking wraps and hats, and by selling hot dogs, candy, and popcorn, the alumnae and senior nurses made \$400, of the \$1,000 that they had promised.

In the summer Mrs. Willis entertained the seniors at a delightful picnic at her home at Flossmoor. This fall Mrs. Gary and Mrs. Pitcher invited the new head nurses to tea at the Woman's Athletic Club. This meeting, in the interests of the Linen Committee, was considered a great treat by the nurses.

Mrs. Borland redecorated the reception room in the Stickney House, and the committee supplied curtains for the new dining room. Mrs. Waters gave a table and couch, and Mrs. Pitcher a serving table. A silver bowl with six candlesticks, and a coffee urn were given by Mrs. Halstead. Dr. Allport has sent several pictures for the Training School.

New victrola records have been greatly enjoyed, and also the radio, assembled and installed by Dr. Eugene Cary. Concert and lecture tickets have been given frequently by Miss Kinsolving, Mrs. John J. Borland, Mrs. Crerar, Miss Carter, Miss Blair, Mr. Wight Neumann, Mr. George Scott, Mr. Hughitt and Mr. Bryson.

Nurses and patients have expressed their appreciation of the Sunday evening services, conducted by Dr. Waters and the Grace Church choir. New hymnals for the chapel have been supplied by Mrs. DeKoven and Mrs. Gay.

The pianos in the nurses' home are in a deplorable condition. They are so old that they can not be tuned to the pitch at which an orchestra must play. The committee has rented a piano for a month, but is very anxious to have a new one.

Respectfully submitted,

CARYL CASSELBERRY, Chairman.

ADMISSION OF PATIENTS

**FOR CHILDREN UNDER 12 YEARS OF AGE \$1.00 PER DAY
THE CHARGE FOR OPEN WARD BEDS IS \$3.00 PER DAY**

The Hospital cares for an average of about one hundred and twenty wholly free patients and will, when there are vacant beds in the open wards, receive patients whose means are limited for any sum which they may be able to pay and those without means as free patients, provided they are admissible under the rule governing the admission of patients.

Applications for the admission of patients, who are unable to apply in person, must be made prior to sending them, and should be made between the hours of nine a. m. and five p. m. All promises of admission are made subject to the result of an examination, as to admissibility, on their arrival at the Hospital.

The financial status of all free or part pay patients is investigated by the Social Service Department and free treatment will not be given unless justified by the report.

Persons making application on behalf of others should be able to furnish concise information on the following points.

The nature of the disease or injury.

The duration of the disease or the date of the injury.

Present condition of the patient.

What treatment if any has been received?

Is the patient able to pay the full rate, or pay in part, or is he or she a proper subject for admission as a free patient?

Patients will in the usual course be received only between the hours of nine a. m. and five p. m., but emergency cases will be received at any hour.

EXTRACT FROM THE RULES

“The Hospital is for the treatment of acute, curable, non-contagious diseases and injuries. The following are inadmissible. Sufferers from contagious, dangerously infectious, or incurable diseases, cancers of an incurable and offensive nature, drug habits, delirium tremens, insanity, venereal diseases, phthisis and persons whose presence in the wards would be prejudicial to the welfare of the other patients.

“Patients who refuse to accept the treatment prescribed by the Medical Staff, or refuse to comply with the reasonable instructions of the physicians or nurses, or who willfully violate the rules of the Hospital will be discharged.”

REPORT OF THE LINEN COMMITTEE

The Linen Committee begs to submit its Annual Report:

Our work in 1923 has not been on as large a scale as in 1922. Because of the drive for the hospital we decided to make no active campaign for funds and to content ourselves with furnishing the eleven special articles that we took over in 1921. To this we have added Bath Robes for male ward patients, Doctors' long coats and Standard Covers for the operating rooms.

The number and cost of articles given to the hospital in 1923 are as follows:

	Number	Cost	Total
Infant Slips	550 @	\$.30	\$165.00
Leggings	312 @	.20	62.40
Breast Binders	440 @	.15	66.00
Baby Bands	480 @	.25	120.00
Bed Pan Covers	904 @	.13	117.52
Operating Gowns	432 @	1.25	540.00
Patients' Gowns	425 @	1.00	425.00
Doctors' Aprons	245 @	.59	144.55
"T" Binders	650 @	.21	136.50
Abdominal Binders ...	420 @	.29	121.80
Children's Gowns	230 @	.51	117.30
Bath Robes	36 @	1.50	54.00
Interne Coats	35 @	2.00	70.00
Standard Covers			
(45 inch)	120 @	.20	24.00
			<hr/> \$2,164.07

Added to this is the salary paid to the
Supervisor of Linen..... 1,175.00

Gives the Committee a total donation to the
hospital in 1923 of\$3,339.07

The above cost of Infant Slips, Operating Leggings, Baby Bands and Bed Pan Covers is for material only. These garments have been made by various co-operating church organizations and individuals. A list of these organizations and individuals is appended to this report.

In June, 1923, the Linen Committee received a donation of \$5,000.00 from (Louise S. Boardman (Mrs. Albert B.)). This money was immediately added to the Linen Committee Fund

and invested. The Linen Committee has a total of \$19,000.00 invested in two funds, with an annual income of \$1,255.00. This income from investments is used for the salary of the Supervisor of Linen. A list of the securities in the two funds, The St. Luke's Linen Fund and the Jessie Spaulding Landon Fund, is appended to this report; also, the Annual Financial Report of the Committee showing our income from donations and interest, and our expenditures.

We have on hand all articles for 1924, provided the requirements are the same as in 1923, with the exception of Bed Pan Covers. The needs of the hospital change from time to time and it is impossible to state exact figures in advance. A list of finished garments on hand January 1, 1924, is appended to this report.

We are pleased to report that the system of even exchange, clean linen for soiled, put into operation in 1922 in certain departments, has proved a success. Some trouble continues in one of these departments, but the Linen Committee continues optimistic.

A supply of aprons and caps for laundry employees was purchased by the Linen Committee. These caps and aprons are cheerfully paid for by the workers and have added greatly to the appearance of the laundry and to the whole morale. Following a request of the Linen Committee the Superintendent of the Hospital had the ceiling of the laundry painted white and new lights installed over the inspection table. This has made a great improvement in light and efficiency.

A spirit of co-operation has been built up by the Supervisor of Linen and the laundryman, and we feel that a big step forward has been made in that end of the linen situation. We are frank to state that along other lines we have not been as successful. Certain changes have been made, some as pure experiments,—too new to state results. Until we get the new hospital and conditions are bettered we fear no radical changes can be accomplished.

The Linen Committee desires to repeat the closing thought of its last year's Annual Report. Another year has increased our conviction that a paid Supervisor of Linen is of vital importance to the Hospital. The possibilities of this position are unlimited if real co-operation can be established and sufficient authority granted to carry out the plans.

EMILY LYON GARY.
